Special Day for Spain

On 26th September, the Special Day for Spain was held in Conference Room B106. The Speakers Ms Jasone Fernandez Moragues, Ms Natale Seron Arizmendi from Spain and Mr. Asset Kussaiyn from Kazakhstan gave their classmates a wonderful experience about their hometown. Jasone Fernandez Moragues and Natale Seron Arizmendi gave us a brief introduction of Spain. The Kingdom of Spain is a sovereign state constituted as a parliamentary democracy and constitutional monarchy.

Spain is composed of 17 autonomous communities and two autonomous cities. As for governance of the state, the governance of the state is based on the separation of powers according to the Spanish Constitution of 1978: Executive branch lying in a Council of Ministers presided by a Prime Minister, legislative branch formed by the Congress of Deputies and a Senate, and Judicial branch made up of Courts of Justice.

When came to Spanish history, the two ladies showed us a detailed picture. As they mentioned, Spain is marked by a strong Roman heritage. The Roman Catholic Church has been a fundamental part of the formation of the country and its subsequent development, the Christian morality is visible in the customs of the Spanish society.

TORTURA
NO ES ARTE NI CULTURA

The country has a wide cultural diversity; Spanish art, architecture, gastronomy (tapas, wine, paella...) and music reflect the successive waves of foreign invaders. Spanish is the second most spoken language in the world and the official language in Spain. Nevertheless, there are 6 different languages apart from the Spanish in our country: Euskera, Catal n, Valenciano, Balear, Gallego and Aran  s.

Special Day for Kazakhstan

On the Special Day for Kazakhstan, Mr. Asset Kussaiyn guide us to Kazakhstan through his presentation. Firstly, he showed us the 550 years of the Kazakh Khanate which was founded by Ghengisid Sultans (Princes) Kerey and Zhanibek in 1465. The Khanate was located roughly on the territory of present-day Kazakhstan and was the first separate state of the Kazakhs, a Turkic-speaking, formerly nomadic people inhabiting the vast Eurasian steppe plains between Altai mountains in the east and the Caspian sea in the west, Siberian taiga in the north and Tian Shan mountains in the south.

Regarding the economic, he introduced the special economic zones which have played a major role in Kazakhstan's economic diversification. Kazakhstan has pioneered special economic zones (SEZs) since the early 2000s, aimed at boosting various sectors of the economy, including manufacturing, petrochemicals, and ICT.

The WE-WC Expressway was an important part of his presentation, which is a major part of the Western Europe-Western China Transport Corridor, which Kazakh president Nursultan Nazarbayev described in a 2012 speech as the “construction of the century.” It is to be part of a new multimodal, high-speed nervous system, which will link together other highways, rail lines, and transport hubs as it ties together China, the CIS, Eastern Europe, South Asia, and the Middle East -- essentially turning Kazakhstan into the logistical heart of Eurasia.

At last, Asset Kussaiyn tell us that Kazakhstan has a hybrid system of government that combines aspects of both parliamentary and presidential systems. The principle of independence and the political system were formulated in the first Constitution of Kazakhstan of January 1993, which was approved by referendum on 30 August 1995.
